SKILLS

Unity & Gameplay

- C#
- Gameplay
- UI/UX
- Bug fixing

Monetization

- IAP
- Ads

Backend

- PlayFab
- Azure Functions

Process

- GDD
- Production

EDUCATION

Industrial University of HCMC
B.Eng. Software Engineering — GPA 3.07/4.0 (2024)

CERTIFICATIONS

TOEIC 615

Junior Unity Developer with close to two years of mobile game development experience at PapaGroup — spanning gameplay, UI, IAP/Ads integration, and backend work (PlayFab + Azure Functions) for systems like Battle Pass and Quests. Contributed to 3 shipped production titles and independently produced 10+ hyper-casual/midcore games from design docs (GDDs).

WORK EXPERIENCE

PapaGroup — Nov 2024 – Sep 2026

Junior Unity Developer

Mar 2026 – Sep 2026

- Bo Lac Dau Phong** — backend (PlayFab + Azure Functions) for IAP, Ads, Battle Pass, Quest; base UI, game logic, bug fixing
- Gbox** — took over an enterprise gamification app, handled business logic per requirements

Fresher

Jul 2025 – Feb 2026

- Independently produced 10+ hyper-casual/midcore games from GDDs, averaging 1–2 weeks per game
- Draw Adventure** — IAP, Ads, gameplay, UI, bug fixing

Full-time Employee (Intern)

Feb 2025 – Jun 2025

- Aquex** — IAP, Ads; collaborated with backend team on logic/UI integration; gameplay contributions, bug fixing

Intern

Nov 2024 – Feb 2025

- Built a personal project as part of university graduation assessment

KEY PROJECTS

Bo Lac Dau Phong	Backend (PlayFab + Azure Functions), base UI, game logic	Google Play ↗
Draw Adventure	IAP, Ads, gameplay, UI, bug fixing	Google Play ↗
Aquex	IAP, Ads, backend collaboration, gameplay	Google Play ↗
Gbox	Enterprise gamification app — business logic per requirements	Not yet released

10+ self-produced hyper-casual/midcore games built from GDDs, including *Drill Frenzy*, currently in closed testing on Google Play. Demo site: ttd2002.github.io/game-demo-reel. These titles have since been delisted from the App Store; Google Play links only.
